Maths

Time—Children will build upon their current knowledge of time by looking at analogue and digital times. They will start looking at converting from and to the 24 hour clock.

Shape—We will extend our knowledge of angles, comparing and ordering angles. Moving onto working with symmetry.

Statistics—We will look at interpreting data in bar charts alongside working with line graphs

Position & Direction—The focus will be on plotting and using coordinates.

Ongoing: Arithmetic, Reasoning and Times Tables

Science

Classification and Changing Habitats

In this unit, children will be exploring ways to group living things. Children will create classification keys and study how habitats change over time. We will also look at the impact seasonal change can have on habitats, alongside the impact that humans can have as well.

Characteristics of Learning

Perseverance

Listening

Team work

Kindness

Wow Moment! -

Trip to Egyptian museum

History

What was important to Ancient Egyptians?

In this unit children will be investigating Ancient Egyptian beliefs and the role of religion in everyday life. We will examine evidence including mummies, pyramids and the Book of the Dead.

English

High Quality Text: Arthur and the Golden Rope

Fiction: We will be writing a short adventure story incorporating elements of myths and legends. Children will choose a scary monster and magical item to feature in their story. We will focus on varying our sentence openers and using exciting vocabulary when describing characters and setting.

Non Fiction— research and create a biography for one of the powerful gods that are featured in the text. We will look at the features of a biography, and how this kind of text is structured.

Religious Education

Prayer—What is prayer?

Children will have the opportunity to reflect upon the different styles of prayer, looking at how prayers are created in different ways. We will look at how World Faiths pray in similar and different ways

Homework and Reading

Please make sure children continue to complete their homework weekly and reading books are returned daily.

Computing

Data Handling—Investigating Weather

In computing, we will be looking at ways to search the web efficiently to find temperatures in different cities and record this accurately. We will be designing a weather station that gathers and records sensor data, explaining how it works and the units of measurement it would use.

Worship Rota

Monday	Class Worship
Tuesday	Collective Worship
Wednesday	Rev. Andrew
Thursday	Celebration
Friday	Class Worship

Music

Body and tuned percussion—Rainforests

In this unit, children will explore the rainforest through music. They will start by identifying structure and texture in music. We will move onto creating musical rhythms using body percussion to reflect different parts of the rainforest.

DT

Textiles—Fastenings

In this unit children will start by analysing and evaluating a range of existing fastenings. They will then move onto devising a list of design criteria to design, generate and evaluate a fastening that can be used on a book cover.

Physical Education

PE will continue to be delivered through Wigan Athletic Community Trust throughout this term.
